CAREER SUMMARY

Language I/O, LLC, Cheyenne, WY (May 2015 - Oct 2016)

Language I/O provides a multilingual translation service through LinguistNow, which provides the tools to automate human or machine translation through a Java server application.

Full Stack Developer

- Modified existing software to correct errors, adapt to new hardware and improve performance.
- Worked closely with clients to establish problem specifications and system designs
- Identified and suggested new technologies and tools for enhancing product value and increasing team productivity
- Worked in an Agile Development Team and used technologies such as Glassfish server, MySQL, J2EE, JPA, JSP, and JavaScript to maintain and enhance an enterprise Java application
- Designed, maintained, and implemented REST APIs
- Stored new data using Java persistence libraries and MySQL, and used jQuery to develop asynchronous web pages
- Streamlined deployment process by developing continuous integration tools
- Developed code fixes and enhancements for inclusion in future code releases and patches

Cheyenne Technology, LLC, Cheyenne, WY (Apr 2013 - Aug 2014)

Cheyenne Technology, LLC develops websites that leverage social media channels and support mobile devices. The company designs PHP-based web pages for a variety of local clients, and uses the Concrete5 CMS.

Software Development Intern

- Completed website updates (remotely) for various clients and resolved numerous problems in Java support software

OTHER EXPERIENCE

Ark Regional Services, Laramie, WY (May 2012 - Aug 2013)

Direct Support Staff

University of Wyoming, Laramie, WY (July 2011 - May 2012)

Resident Assistant

EDUCATION

- Bachelor of Science in Computer Engineering, University of Wyoming, Laramie, WY, May 2015
- Trustee's Pride Scholarship, Hathaway Honors Scholarship, May 2009 - May 2013
- Associated Students of the University of Wyoming (Student Senate), National Society of Collegiate Scholars
